Acorn TV is one of the many options a library can subscribe to from RBdigital. Acorn TV is a streaming service that offers world-class mysteries, dramas, comedies, and documentaries from Britain and beyond. With thousands of hours of commercial-free programming and new shows added weekly, there's always something to watch! **Acorn TV is usually \$4.95 / month**

Return to classic series like Poldark, Foyle's War, Midsomer Murders, and Agatha Christie's Poirot or discover a new favorite among 80 exclusive programs, including A Place to Call Home, Blandings, The Brokenwood Mysteries, and Jack Irish.

If you already enjoy audiobooks or magazines from RBdigital, you are halfway there. Log in or sign up for an RBdigital account with your library card number and PIN, then create a free Acorn TV account. RBdigital suggests using the same password for both accounts.

Your free Acorn TV account is good for 7 days. You will need to log in to RBDigital and then Acorn TV again for another 7 day pass. There is no limit to the number of times you can log in and you do not need to sign up for a subscription.

BOOKS

OverDrive

Libby App is an update to the OverDrive app that's been on the market for 15 years. It enables readers of any age to browse and borrow from hundreds of thousands of best-selling books for free. Working with Cuyahoga County Public Library, we delivered a million digital books last year, and another million through Cleveland Public Library. Libby was awarded one of the top new apps on the Google Play store.

cloudLibrary (Bibliotheca by 3M) has great new titles for all to Use CloudLibrary on many devices, including: Apple devices (iPad, iPhone); Android tablets and phone; Kindle Fires; PCs and Macs (transfer to your Nook or Kobo e-reader)

Compare 3M cloudLibrary and OverDrive

OverDrive takes a multi-pronged approach by making e-books available as elegant Web apps, downloadable files, or Kindle e-books. The latter is possible because OverDrive has a deal with Amazon to use its Kindle Store as a distribution hub.

I use OverDrive and 3M cloudLibrary interchangeably because they never seem to have the same titles available. I treat these as a single, gigantic library with untold e-treasures available for download with a click or a tap—but each lending system has shortcomings.
